To Whom It May Concern:

This letter is a recommendation to use the services of Joe D. Lynn and Roommate Seekers.

I have known and used Roommate Seekers for several years now, and have found that Joe Lynn is great at what he does, he has provided me with several roommates in the past, most have stayed for a couple of years and have left because of marriage or having the luck of relocating to a new job or finally being able to obtain their own house or apt.

He screens his clients thoroughly and I trust his judgement in knowing what clients would be better suited with each other. He protects his clients privacy and security for both the Owner and Renters of the property.

I do not hesitate to use his services now or in the future and have recommend to my friends and or family to do the same. I have also sent several students from the School where I work to see him in times of need. As a matter of fact I would even trust him with my Mother if the need arose.

Sincerely,

A handwritten signature in cursive script that reads "Terry Parrish".
