Dear Joe:

Thank you so much for having this business! I don't know what I would do without you!!!

Back in 1993 I was really feeling the financial pressure from having worked Temp jobs for a year. The last three companies I worked for went through buyouts and consolidation and I got laid off each time. I really loved working temp, but the pay wasn't very good. I did it because I thought it would be safer....I could find out more about the company in case I was offered a permanent position.

One day I was talking to an acquaintance and he asked, "why didn't I get a roommate"? Frankly, I never had even thought of the idea because I loved my privacy so much. He gave me the name and number of Roommate Seekers and I think I called that very day! Joe and I made an appointment, he came to my house one evening and that was the beginning of the best thing that ever happened to me. Joe has been so thorough in his selections for me and only gave my number to those he thought I might be interested in. And in all cases it was a great match!! My last roommate has been with me for nearly 2 years and the only reason he is moving is because he got transferred. He said he hopes there is something like "Roommate Seekers" in Alabama! Joe is on the search again and I am sure he will find another "ideal" roommate for me!

Thank you Joe!

Sincerely,

Bonnie Agnich
